

Sunday School

Christian Education starts in the Waters of Baptism. It is nurtured and developed as a partnership between home and church. The Holy Trinity faith family guides and supports parents as they fulfill the Baptismal promise to bring their child to worship.

We seek to build bridges between significant milestones of our Lutheran tradition and Christian faith formation: Baptism, Holy Communion, Confirmation and lifelong discipleship.

The Holy Trinity community seeks to embody faith-active-in-love. Use ministry milestones to increase faith, strengthen families, build disciples and grow our relationship with God.

- Talk to your children about what they learned in Sunday School. Lessons in 1st grade through 6th grade are the similar to the lessons that are read in worship.
- Explain what you saw and heard in worship and see what common things you learned. Make sure your children get adequate sleep Saturday night and have breakfast at home before Sunday School.
- Volunteer to help in your child's class. Volunteer to help with a special Youth led events.
- Provide feedback and make suggestions to help insure that we can grow and improve our programs.
